for cegep teachers

BACK TO SCHOOL NEW ON THE FNEEQ WEBSITE !

Back to school is synonymous with innovation : the FNEEQ Website is no exception to this rule!

You can now find, under Collective Agreement, onglet «Cegeps» all collective agreements which have determined our working conditions since 1969. It will soon be the same with respect to letters of agreement. For the moment, please note that this is only available in French.

In addition in the Collective Agreement Tools section, where you can access information on rights of non-permanent teachers, parental rights, family leaves, MED, computing experience, departments, as well as grievance procedures, an explanatory note on the accelerated progression in the salary scale has been added. We also draw your attention to the fact that we have slightly modified the guide for MED in order to provide a clarification about a change made to the collective agreement in 2005 regarding a *mise en disponibilité* in the discipline related to the specific training in a closed program.

Finally, the calendar of the activities of the regroupement cegep for 2011-2012, which can also serve as a reminder for important dates contained in the collective agreement, is now available under Calendar 2011-2012.
